ADDENDUM TO MITIGATED DETERMINATION OF NON-SIGNIFICANCE (MDNS) FOR THE BIO ENERGY (WASHINGTON), LLC LANDFILL GAS-TO-ENERGY PROJECT AT CEDAR HILLS REGIONAL LANDFILL

June 23, 2008

SUMMARY

Pursuant to the Washington State Environmental Policy Act (SEPA), on March 28, 2008, King County Solid Waste Division (KCSWD) as Lead Agency under SEPA issued an MDNS for the Bio Energy's Landfill Gas-to-Energy Project. The MDNS was based on an evaluation of the environmental checklist and other supporting documents, and a determination that the proposal, including all of its mitigation measures, would not have a probable significant adverse environmental impact. Public comments on the MDNS were accepted through May 22, 2008.

PURPOSE OF ADDENDUM

Under SEPA, issuance of an addendum is appropriate to provide additional information or analysis that does not substantially change the analysis of significant impacts and alternatives in existing environmental documents (WAC 197-11-600 [4] [c], -706). This Addendum attaches the following documents:

1. Noise Emissions Modeling Analysis - Preliminary Acoustical Design, dated June 11, 2008 and prepared by Hessler Associates Inc.
2. Emergency Response Plan, dated June 12, 2008 and prepared by Bio Energy (Washington), LLC; and
3. Spill Prevention Control and Countermeasures (SPCC) Plan, dated June 12, 2008, and prepared by Bio Energy (Washington), LLC.

There is no change in the substantive analysis from that which has been provided in the MDNS.

Dated: June 23, 2008

Kevin E. Kiernan, P.E.
